EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on January 31, 1947 was 59,589, a decrease of 863 since December 31, 1946. Inside the Washington, D. C. Metropolitan Area there were 11,406, a decrease of 11 since December 31, 1946. Outside the Washington, D. C. Metropolitan Area there were 48,183, a decrease of 852 for the same period. The number of full-time employees in the Department, including 875 outside the continental limits of the United States was 60,464 on January 31, 1946, 11,406 of these were in the Washington, D. C. Metropolitan Area and 49,058 were outside the Washington, D. C. Metropolitan Area.

Total employment on January 31, 1947 was 79,865, a decrease of 954 since December 31, 1946. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, WOC employees, and part-time workers as well as those regularly employed.

The decrease in employment occurred in large part in the Forest Service, the Production and Marketing Administration, the Farmers Home Administration and the Soil Conservation Service. The decrease in the number of full-time and other than full-time employees in the Forest Service was due to adverse weather conditions which disrupted the construction of roads and trails, and other field activities. The decrease in the number of full-time and other than full-time employees in the Production and Marketing Administration was due to curtailment of seasonal activities, reduction in force to comply with personnel ceilings, and regular turnover. The decrease in the number of full-time employees in the Farmers Home Administration was due to pending reorganization, dissolving regional offices and establishing state offices. The decrease in the number of other than full-time employees in the Soil Conservation Service was due to adverse weather conditions which disrupted field activities.

The increase in the number of other than full-time employees in the Bureau of Agricultural Economics was due to work on the Enumerative Survey project.

TURNOVER

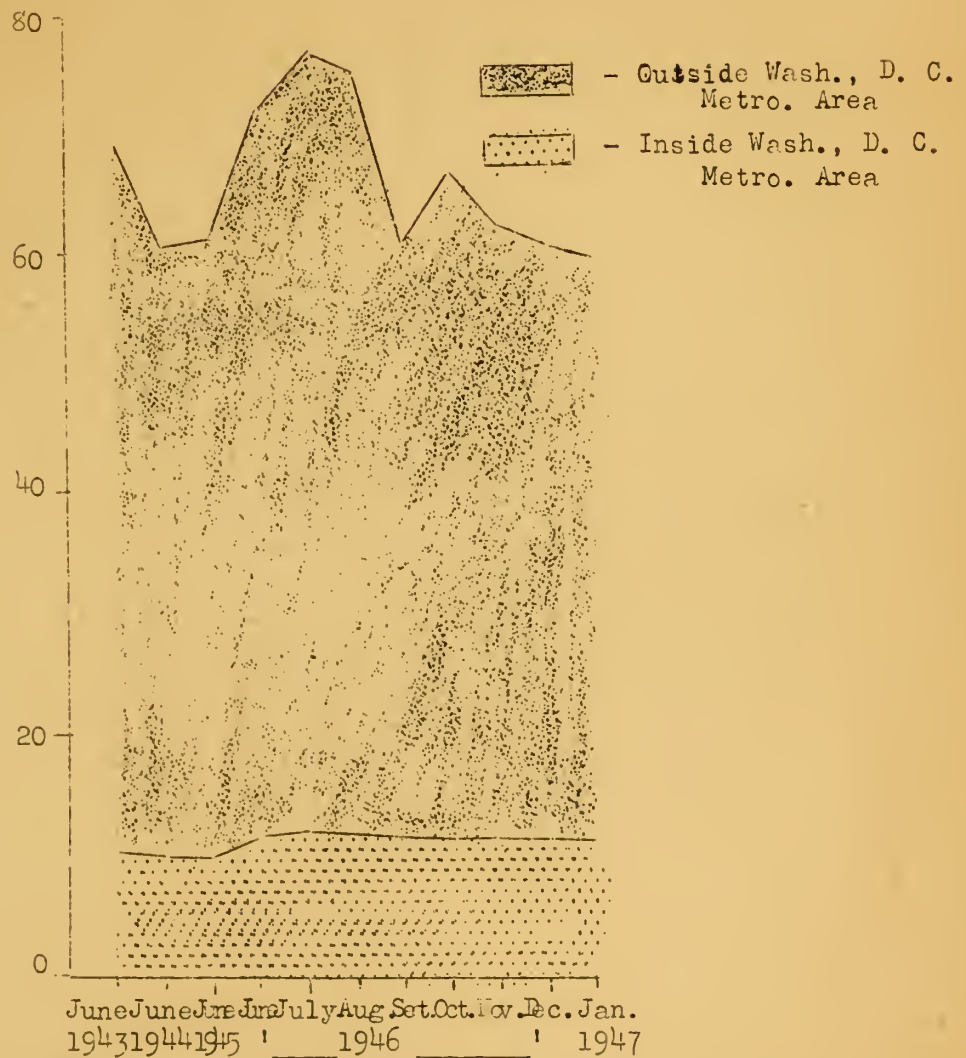

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees, from the Department for January, 1947 totaled 2,148, or 3.6 percent, a decrease of 1.7 percent from December, 1946. There were 238 separations or 2.1 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 0.2 percent from December, 1946; and there were 1,910 or 3.9 percent for the Outside Washington, D. C. Metropolitan Area, a decrease of 2.0 percent for the same period.

The greater percentage of the separations fell in the voluntary separation category which includes separations by resignations, by transfer and by abandonment of positions.

NOTE: The changes in the Statistical Summary of Employment for this month result from the revision of the Civil Service Form 3257 from which the majority of this information is obtained.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hour constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days or work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

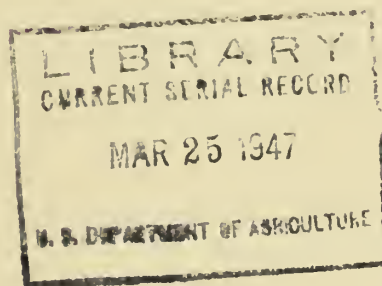

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employeeed hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

February, 1947

Prepared by:
Office of Personnel
Division of Employment
March 21, 1947

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on February 28, 1947 was 59,212, a decrease of 377 since January 31, 1947. Inside the Washington, D. C. Metropolitan Area there were 11,337 full-time employees. This represents a decrease of 70 from the January 31, 1947 revised figure. Outside the Washington, D. C. Metropolitan Area there were 47,875 full-time employees. This represents a decrease of 307 from the January 31, 1947 revised figure. The number of full-time employees in the Department, including 882 outside the continental limits of the United States was 60,094 on February 28, 1947, 11,337 of these were in the Washington, D. C. Metropolitan Area and 48,757 were outside the Washington, D. C. Metropolitan Area.

Total employment on February 28, 1947 was 79,095, a decrease of 770 since January 31, 1947. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, WOC employees, and part-time workers as well as those regularly employed.

The decrease in employment occurred in large part in the Production and Marketing Administration and the Bureau of Agricultural Economics. The decrease in the number of full-time, other than full-time and WOC employees in the Production and Marketing Administration was due to the curtailment of seasonal activities, reduction in force to comply with personnel ceilings, regular turnover, and personnel transferred to Commodity Exchange Authority established by Secretary's Memorandum No. 1185, dated January 21, 1947. The decrease in the number of other than full-time employees in the Bureau of Agricultural Economics was due to the completion of work on the Enumerative Survey project.

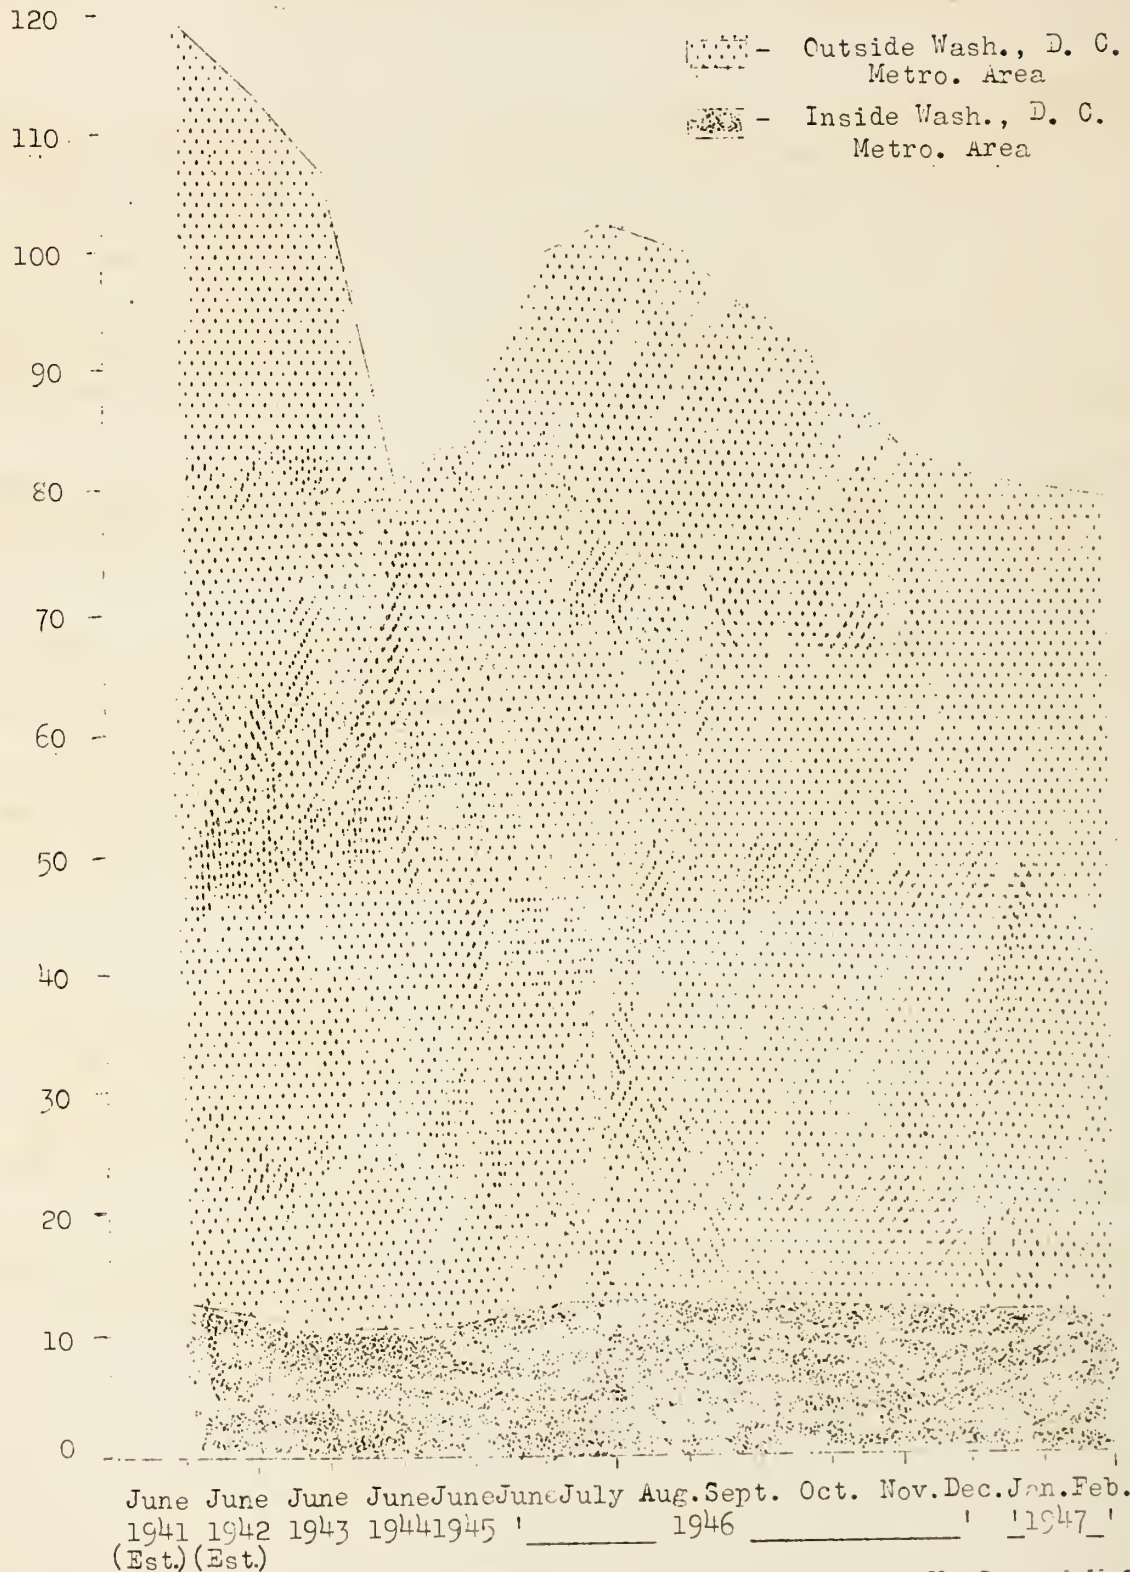

TURNOVER

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees, from the Department for February, 1947 totaled 1,674, or 2.8 percent, a decrease of 0.8 percent from January, 1947. There were 229 separations or 2.0 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 0.1 percent from January, 1947; and there were 1,445 or 3.0 percent for the Outside Washington, D. C. Metropolitan Area, a decrease of 0.9 percent for the same period.

The greater percentage of the separations fell in the voluntary separation category which includes separations by resignations, by transfer and by abandonment of positions.

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the month of Dec. It will not agree with the resignation figure reported on line 20 of the CS Form 3257.

2/ Reasons making up this category are: Desires Perm. Empl.; To work in Private Ind.; Bus. for Self; Former trade or job.

3/ Includes Ofc Budget & Finance; Ofc of Personnel; Ofc of Plant & Oper.; Work Cap. Fund; and Imm. Ofc of Sec'y.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hour constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employeeed hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

Explanatory Note

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

THIRD QUARTER, FISCAL YEAR, 1947

Full-time employment within the continental limits of the United States on March 31, 1947 was 59,280, a decrease of 1,172 from December 31, 1946. The Inside Washington, D. C. Metropolitan Area was decreased by 85 and the Outside Washington, D. C. Metropolitan Area was decreased by 1,087. The decrease in the Inside Washington, D. C. Metropolitan Area was due mainly to reduction in force and normal turnover. The largest decrease in the Outside Washington, D. C. Metropolitan Area occurred during the month of January and was due mainly to the adverse weather conditions which disrupted seasonal activities in the field in the Forest Service, Production and Marketing Administration and the Soil Conservation Service and to the pending reorganization dissolving regional offices and establishing state offices in the Farmers Home Administration.

Total employment on March 31, 1947 was 79,439, a decrease of 1,380 from December 31, 1946. The Inside Washington, D. C. Metropolitan Area was decreased by 57 and the Outside Washington, D. C. Metropolitan Area was decreased by 1,323. During this quarter, employment other than full-time increased by 216 and employment outside the continental limits of the United States decreased by 55.

During this quarter the Commodity Exchange Authority was established in accordance with Secretary's Memorandum No. 1185, dated January 21, 1947.

MARCH, 1947

On March 31, 1947, there were 59,280 full-time employees within the continental limits of the United States, an increase of 68 over February 28, 1947. The Inside Washington, D. C. Metropolitan Area carried 11,332, a decrease of 5; and the Outside Washington, D. C. Metropolitan Area showed 47,948, an increase of 73 for the same period. The number of full-time employees in the Department, including 884 outside the continental limits of the United States was 60,164 on March 31, 1947, 11,332 of these were in the Washington, D. C. Metropolitan Area and 48,832 were outside the Washington, D. C. Metropolitan Area.

The decrease in full-time and other than full-time employees in the Production and Marketing Administration was due to curtailment of seasonal activities, reduction in force in order to comply with personnel ceilings and regular turnover. The decrease in the other than full-time employees in the Bureau of Agricultural Economics represents the termination of appointments of the remainder of the temporary force on the Enumerative Survey Project.

The increase in full-time and other than full-time employees in the Forest Service was due to the beginning of the 1947 field season and organization of fire control, construction and maintenance crews. The increase in the other than full-time employees in the Soil Conservation Service was due to employment of intermittent personnel due to favorable weather conditions.

Total employment on March 31, 1947 was 79,439, an increase of 344 over February 28, 1947. Inside The Washington, D. C. Metropolitan Area there were 11,520, a decrease of 77; and 67,919 for the Outside Washington, D. C. Metropolitan Area, an increase of 421 for the same period. These figures apply to total employment in the Department including employees outside the continental limits of the U. S. and part-time workers as well as those regularly employed,

CASUAL EMPLOYMENT

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of February, 1947, there were 4,248 casual employees in the Department, representing an increase of 2,864 over the December, 1946 figure. The Forest Service was the only bureau employing Casual personnel during February, 1947.

FEMALE EMPLOYEES.

THIRD QUARTER, FISCAL YEAR, 1947

There was a decrease of 556 regular full-time female employees in the Department from December 31, 1946. The number of regular full-time female employees, 18,336, on March 31, 1947 represents 30.5 percent of total regular full-time employees, a decrease of 0.8 percent over the December 31, 1946 figure.

PERSONNEL TURNOVER

THIRD QUARTER, FISCAL YEAR, 1947

Accessions to regular full-time employees totaled 4,232 during the quarter ending March 31, 1947, excluding transfers between reporting units. There were 257 inter-agency transfers, 162 reemployment and returns from military service, 149 original probational appointments, and 3,664 of all other types. All other types of accessions represent 86.6 percent of all accessions to the Department. The accessions rate of full-time personnel in regular groups for the third quarter of the fiscal year, 1947 was 7.1 percent. This represents a decrease of 1.4 percent from the accession rate of 8.5 percent for the second quarter, fiscal year, 1947.

Separations of regular full-time personnel from the Department amounted to 5,417 during the third quarter and consisted of 2,487 voluntary separations; 484 reductions in force; 21 by removal, disqualification and inefficiency; 682 extended leave without pay; and 1,743 of all other types. The separation rate for the same period was 9.0 percent, representing an excess of separations over accessions of 1.9 percent. The rates for the Inside Washington, D. C. Metropolitan Area were: Separations 5.7 percent; and Accessions 5.0 percent, an excess of separations over accessions of 0.7 percent. The rates for the Outside Washington, D. C. Metropolitan Area were: Separations 9.8 percent; Accessions, 7.6 percent, an excess of separations of 2.2 percent. Although this rate is used by the Civil Service Commission and apparently appears high, it is due to the separation of temporary employees and separations by reduction in force.

The turnover rate excluding the separation of temporary personnel and the separations due to reduction in force for the third quarter of the fiscal year 1947 was 5.1 percent; and for the month of March, 1.7 percent.

MILITARY FURLONGHS

The total number of employees serving in the armed forces was 4,589 as of March 31, 1947. This figure includes the female employees serving in the Armed Forces and employees who left to join the Merchant Marine Service. Of the 4,589 serving, 32.9 percent are in the Production and Marketing Administration; 22.5 percent in the Farmers Home Administration; 14.0 percent in the Soil Conservation Service and 11.3 percent in the Forest Service. During the month of March, 1947, 38 employees returned to their positions in the Department. No employees were definitely known to be deceased during the month of March, 1947.

PROMOTIONS

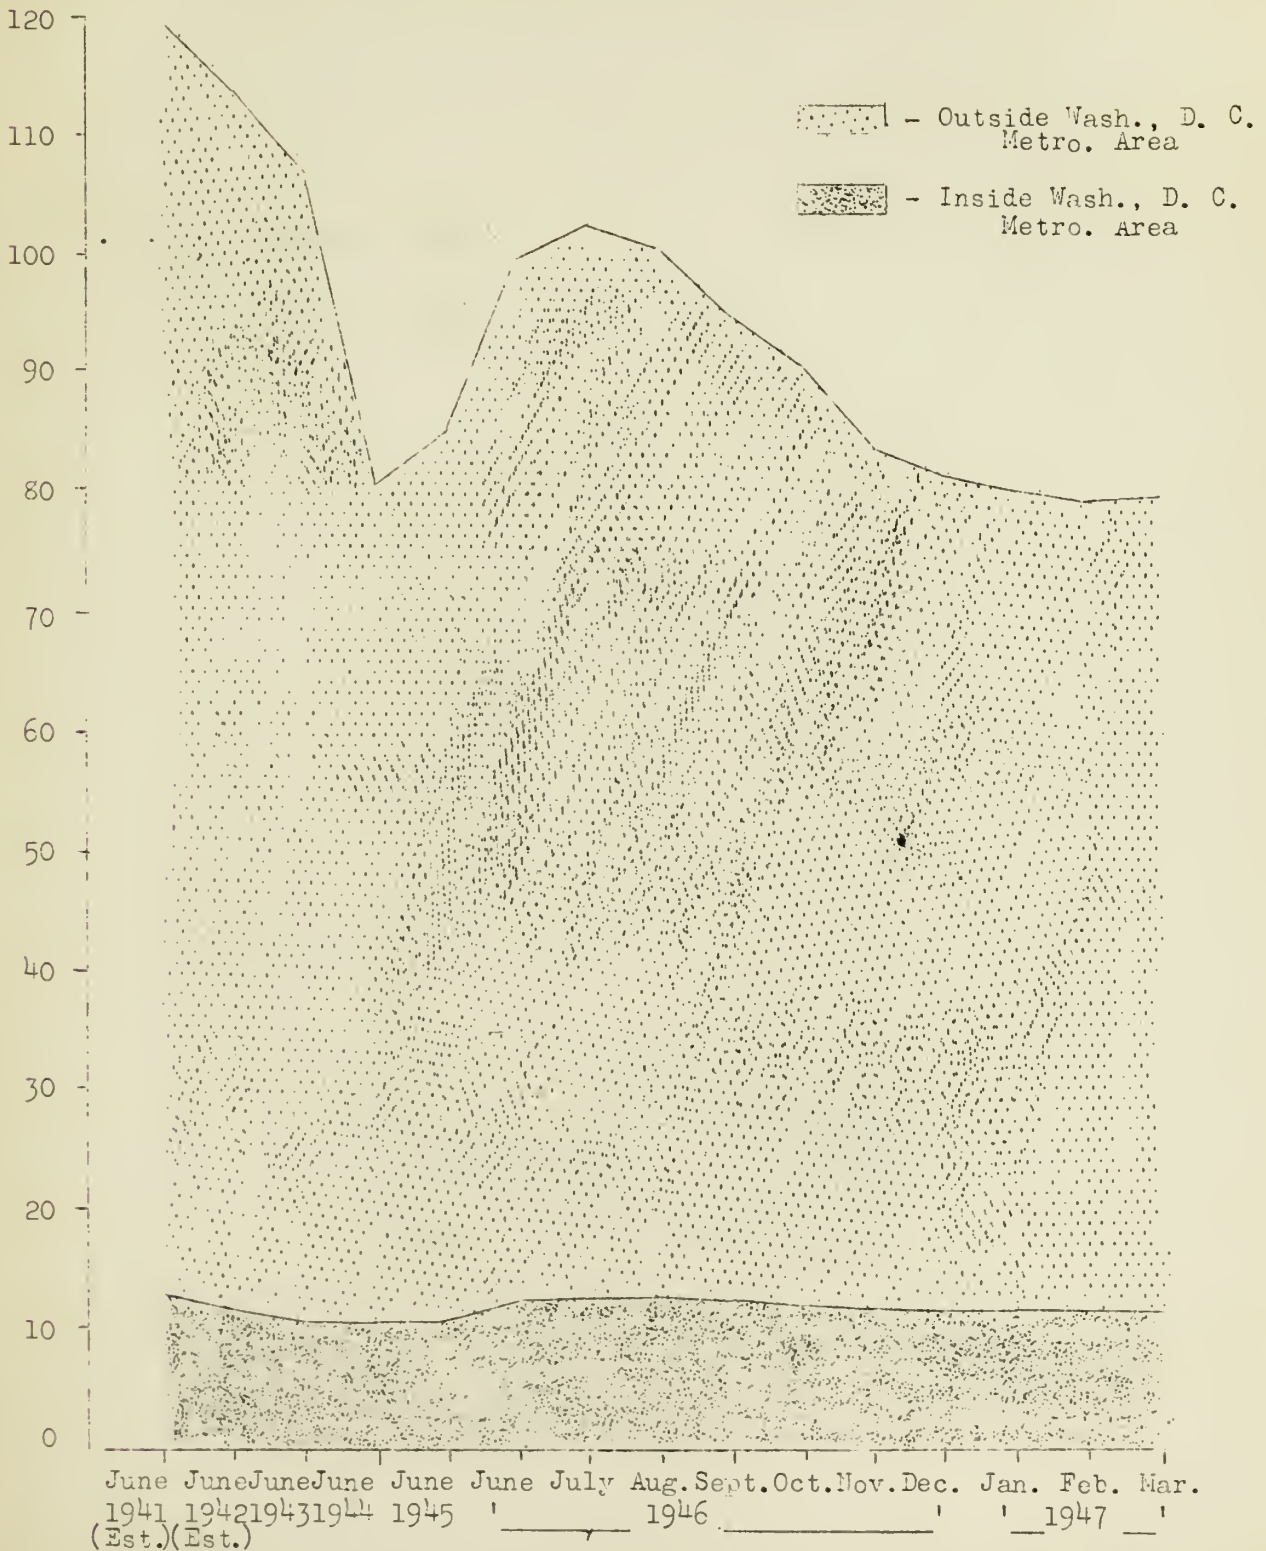

THIRD QUARTER, FISCAL YEAR, 1947

A total of 1,938 grade, or grade and salary promotions, among employees subject to the classification Act of 1923, as amended, and employees in the DA grades, was granted during the third quarter of the fiscal year, 1947. This represents an average of 646 grade or grade and salary promotions for one month.

On the basis of total grade, or grade and salary promotions granted during the quarter, and the average number of employees for the same period, one out of every 31 was recipient of one of the promotions. One out of every 31 in the CAF service received a promotion, as did one out of every 30 in the Professional service, one out of every 31 in the Sub-professional service, one out of every 54 in the CPC service, and one out of every 75 in the group designated as "Not Otherwise Classified".

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

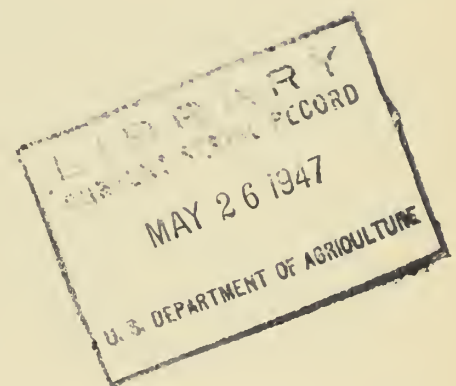

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters. The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.) The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

April, 1947

Prepared by:
Office of Personnel
Division of Employment
May 23, 1947

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on April 30, 1947 was 63,492, an increase of 4,212 since March 31, 1947. Inside the Washington, D. C. Metropolitan Area there were 11,589, an increase of 257 since March 31, 1947. Outside the Washington, D. C. Metropolitan Area there were 51,903, an increase of 3,955 for the same period. The number of full-time employees in the Department, including 921 outside the continental limits of the United States was 64,413 on April 30, 1947, 11,589 of these were in the Washington, D. C. Metropolitan Area and 52,824 were outside the Washington, D. C. Metropolitan Area.

Total employment on April 30, 1947 was 84,451, an increase of 5,012 since March 31, 1947. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, WOC employees, and part-time workers as well as those regularly employed.

The major increase in total and full-time employment was due to the establishment of the Sugar Rationing Administration within the Department of Agriculture effective April 1, 1947. The employees were transferred from OTC-OPA in accordance with a Directive from the Bureau of the Budget.

The increase in full-time and other than full-time employment in the Bureau of Entomology and Plant Quarantine and the Bureau of Plant Industry, Soils and Agricultural Engineering was due to the beginning of seasonal field activities. The increase in full-time and other than full-time employment in the Forest Service was due to organization of fire control and construction and maintenance crews for the 1947 field season.

The decrease in full-time employment in the Farmers Home Administration was necessary to bring employment in line with the 1948 budget. The decrease in the full-time and other than full-time employment in the Production and Marketing Administration was due to curtailment of seasonal activities, reduction in force to comply with personnel ceilings, and regular turnover.

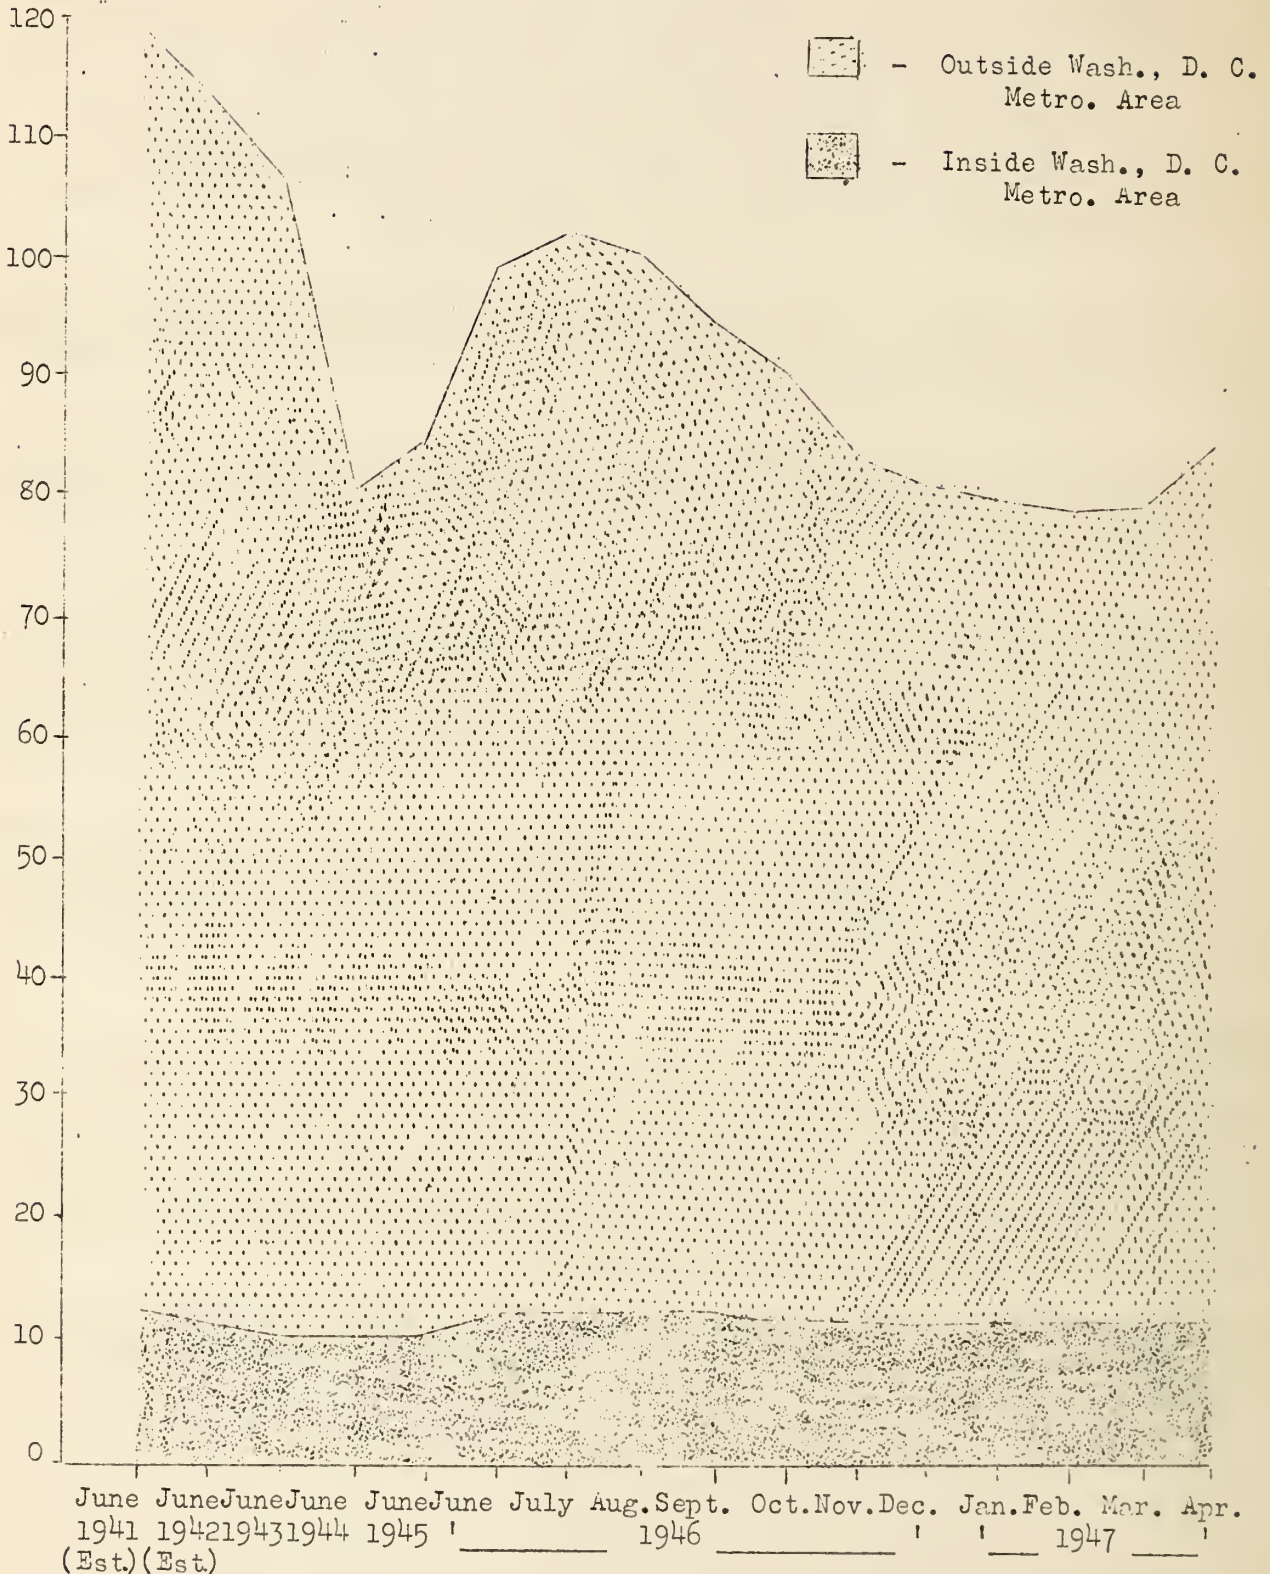

TURNOVER

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees from the Department for April, 1947 totaled 1,932 or 3.1 percent, an increase of 0.4 percent since March, 1947. There were 215 separations or 1.9 percent in the Inside Washington, D. C. Metropolitan Area, an increase of 0.3 percent since March, 1947; and there were 1,717 or 3.4 percent for the Outside Washington, D. C. Metropolitan Area, an increase of 0.4 percent for the same period.

The greater percentage of the separations fell in the voluntary separation category which includes separations by resignations, by transfer and by abandonment of positions.

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the month of March. It will not agree with figures reported on the CS Form 3257.

2/ Reasons making up this category are: Desires Perm. Empl.; To work in Private Ind.; Bus. for Self; Former trade or job.

3/ Includes Ofc Budget and Finance; Ofc of Personnel; Ofc of Plant & Oper.; Work. Cap. Fund; and Imm. Ofc of Sec'y.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.C.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters. The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.) The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

May, 1947

Prepared by:
Office of Personnel
Division of Employment
June 27, 1947

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on May 31, 1947 was 66,961. This represents an increase of 3,467 over the April 30, 1947 revised figure. Inside the Washington, D. C. Metropolitan Area there were 11,562, a decrease of 27 since April 30, 1947. Outside the Washington, D. C. Metropolitan Area there were 55,399 full-time employees. This represents an increase of 3,494 over the April 30, 1947 revised figure. The total number of full-time employees in the Department, including 962 outside the continental limits of the United States was 67,923 on May 31, 1947, 11,562 of these were in the Washington, D. C. Metropolitan Area and 56,361 were outside the Washington, D. C. Metropolitan Area.

Total employment on May 31, 1947 was 90,368, an increase of 5,917 since April 30, 1947. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, WOC employees, and part-time workers as well as those regularly employed.

The increase in full-time and other than full-time employment in the Forest Service was due to increased work in the fire control organization; roads, trails, and other improvement; maintenance and construction projects; and blister rust control work. The increase in the full-time and other than full-time employment in the Bureau of Entomology and Plant Quarantine was due to seasonal field activities. The increase in the other than full-time employment in the Production and Marketing Administration was due to the resumption of seasonal activities. The increase in the full-time employment in the Bureau of Animal Industry was necessitated by the program for control and eradication of the Foot-and-Mouth Disease.

The decrease in full-time employment in the Farmers Home Administration was necessary to bring employment in line with the 1948 budget.

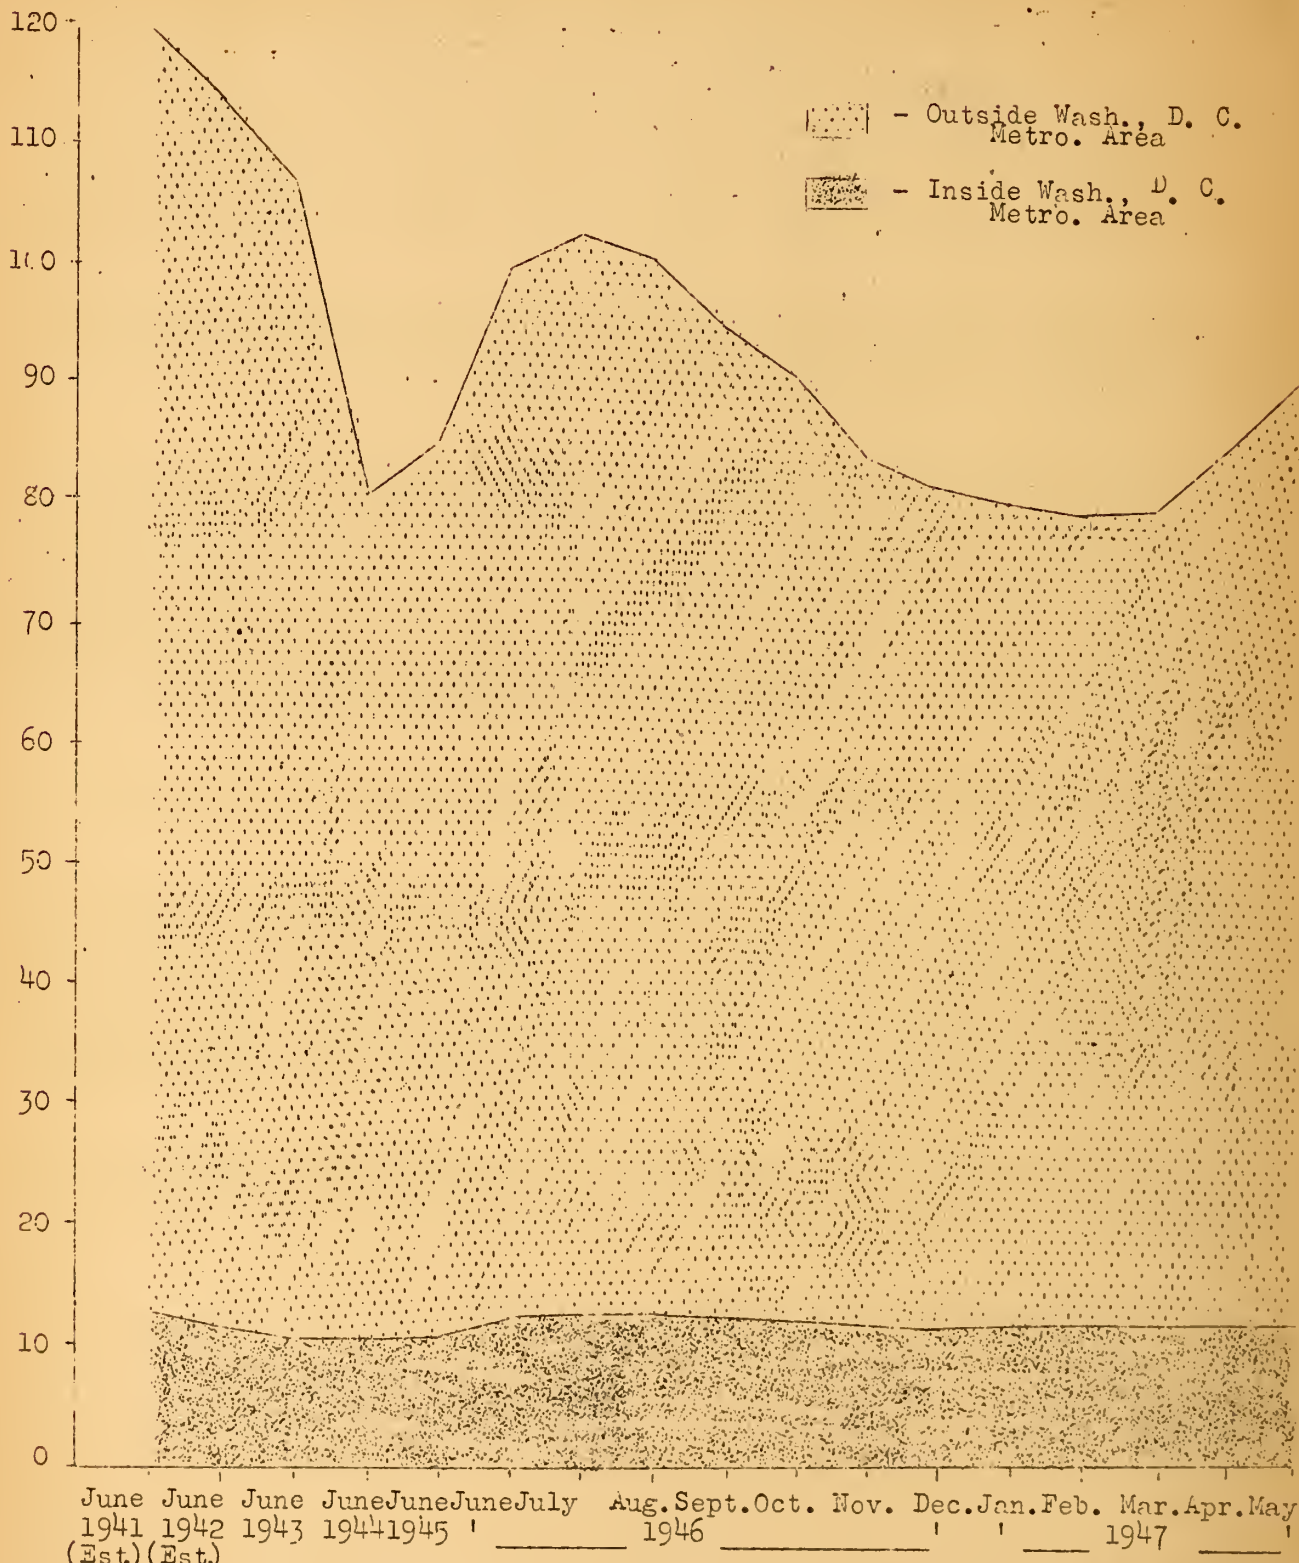

TURNOVER

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees from the Department for May, 1947 totaled 2,323, or 3.6 percent, an increase of 0.5 percent since April, 1947. There were 134 separations or 1.6 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 0.3 percent since April, 1947; and there were 2,139 or 4.0 percent for the Outside Washington, D. C. Metropolitan Area, an increase of 0.6 percent for the same period.

The greater percentage of the separations fell in the voluntary separation category which includes separations by resignations, by transfer and by abandonment of positions.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

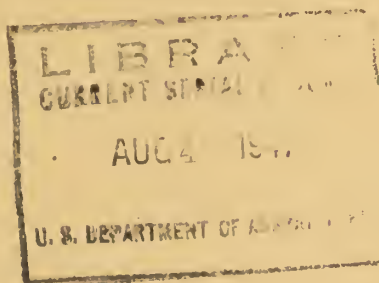

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters. The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.) The number of these persons will be reported annually, as soon as possible after June 30 of each year.

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

FOURTH QUARTER, FISCAL YEAR, 1947

Full-time employment within the continental limits of the United States on June 30, 1947 was 67,267, an increase of 7,987 over March 31, 1947. The Inside Washington, D. C. Metropolitan Area was decreased by 603 and the Outside Washington, D. C. Metropolitan Area was increased by 8,590. The decrease in the Inside Washington, D. C. Metropolitan Area occurred during the month of June and was due mainly to reductions in force in order to comply with the proposed appropriation legislation. The increase in the Outside Washington, D. C. Metropolitan Area occurred during April and May and was due mainly to seasonal appointments of employees to carry on the Blister Rust Control Program in the Bureau of Entomology and Plant Quarantine and the fire control organization; roads, trails and other improvement; and maintenance and construction projects in the Forest Service. The program in the Bureau of Animal Industry for the control and eradication of the Foot-and-Mouth Disease also created an increase in full-time employment for this quarter.

Total employment on June 30, 1947 was 90,460, an increase of 11,021 over March 31, 1947. The Inside Washington, D. C. Metropolitan Area was decreased by 503 and the Outside Washington, D. C. Metropolitan Area was increased by 11,524. During this quarter, employment other than full-time increased by 2,965 and employment outside the continental limits of the United States increased by 65.

During this quarter the Sugar Rationing Administration was established within the Department of Agriculture and the employees were transferred from the Office of Temporary Controls-Office of Price Administration in accordance with a Directive from the Bureau of the Budget.

JUNE, 1947

On June 30, 1947 there were 67,267 full-time employees within the continental limits of the United States. This represents an increase of 304 over the May 31, 1947 revised figure. Inside the Washington, D. C. Metropolitan Area there were 10,729, a decrease of 833 since May 31, 1947. Outside the Washington, D. C. Metropolitan Area there were 56,538 full-time employees. This represents an increase of 1,137 over the May 31, 1947 revised figure. The total number of full-time employees in the Department, including 884 outside the continental limits of the United States was 68,133 on June 30, 1947, 10,729 of these were in the Washington, D. C. Metropolitan Area and 57,404 were outside the Washington, D. C. Metropolitan Area.

The increase in full-time and other than full-time employment in the Forest Service was due to increased work in the fire control organization; roads, trails and other improvement; and maintenance and construction projects. The increase in the full-time and other than full-time employment in the Bureau of Entomology and Plant Quarantine was due to seasonal field activities. The increase in the other than full-time employment in the Bureau of Plant Industry, Soils and Agricultural Engineering was due to seasonal employment of farm laborers.

The decrease in full-time and other than full-time employment in the Farmers Home Administration was necessary to bring employment in line with the proposed 1948 budget legislation and the expiration of appointments of state and county committeemen. The decrease in full-time and other than full-time employment in the Production and Marketing Administration and the Soil Conservation was necessary to bring employment in line with the proposed 1948 budget. The decrease in the full-

time employment in the Sugar Rationing Administration was due to the termination of rationing in the consumer and institutional user level.

Total employment on June 30, 1947 was 90,460, an increase of 92 over May 31, 1947. Inside the Washington, D. C. Metropolitan Area there were 11,017, a decrease of 780; and 79,443 for the Outside Washington, D. C. Metropolitan Area, an increase of 872 for the same period. These figures apply to total employment in the Department including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

CASUAL EMPLOYMENT

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of May, 1947, there were 2,938 casual employees in the Department, representing a decrease of 2,371 over the March, 1947 figure. The Forest Service was the only bureau employing Casual personnel during May, 1947.

FEMALE EMPLOYEES

FOURTH QUARTER, FISCAL YEAR, 1947

There was a decrease of 1,682 regular full-time female employees in the Department from March 31, 1947. The number of regular full-time female employees, 16,654 on June 30, 1947 represents 24.8 percent of total regular full-time employees, a decrease of 5.7 percent over the March 31, 1947 figure.

PERSONNEL TURNOVER

FOURTH QUARTER, FISCAL YEAR, 1947

Accessions to regular full-time employees totaled 20,344 during the quarter ending June 30, 1947, excluding transfers between reporting units. There were 2,678 inter-agency transfers, 81 reemployment and returns from military service, 136 original probational appointments, and 17,449 of all other types. All other types of accessions represent 85.7 percent of all accessions to the Department. The accessions rate of full-time personnel in regular groups for the fourth quarter of the fiscal year, 1947 was 32.2 percent. This represents an increase of 25.1 percent over the accession rate of 7.1 percent for the third quarter, fiscal year, 1947.

Separations of regular full-time personnel from the Department amounted to 12,455 during the fourth quarter and consisted of 3,515 voluntary separations; 4,757 reductions in force; 38 by removal, disqualification and inefficiency; 601 extended leave without pay; and 3,544 of all other types. The separation rate for the same period was 19.7 percent, representing an excess of accessions over separations of 12.5 percent. The rates for the Inside Washington, D. C. Metropolitan Area were: Separations 12.7 percent; and Accessions 6.4 percent, an excess of separations over accessions of 6.3 percent. The rates for the Outside Washington, D. C. Metropolitan Area were: Separations 21.1 percent; Accessions 37.6 percent, an excess of accessions of 16.5 percent. Although this rate is used by the Civil Service Commission and apparently appears high, it is due to the separation of temporary employees and separations by reduction in force.

The turnover rate excluding the separation of temporary personnel and the separations due to reduction in force for the fourth quarter of the fiscal year 1947 was 6.1 percent; and for the month of June, 2.3 percent.

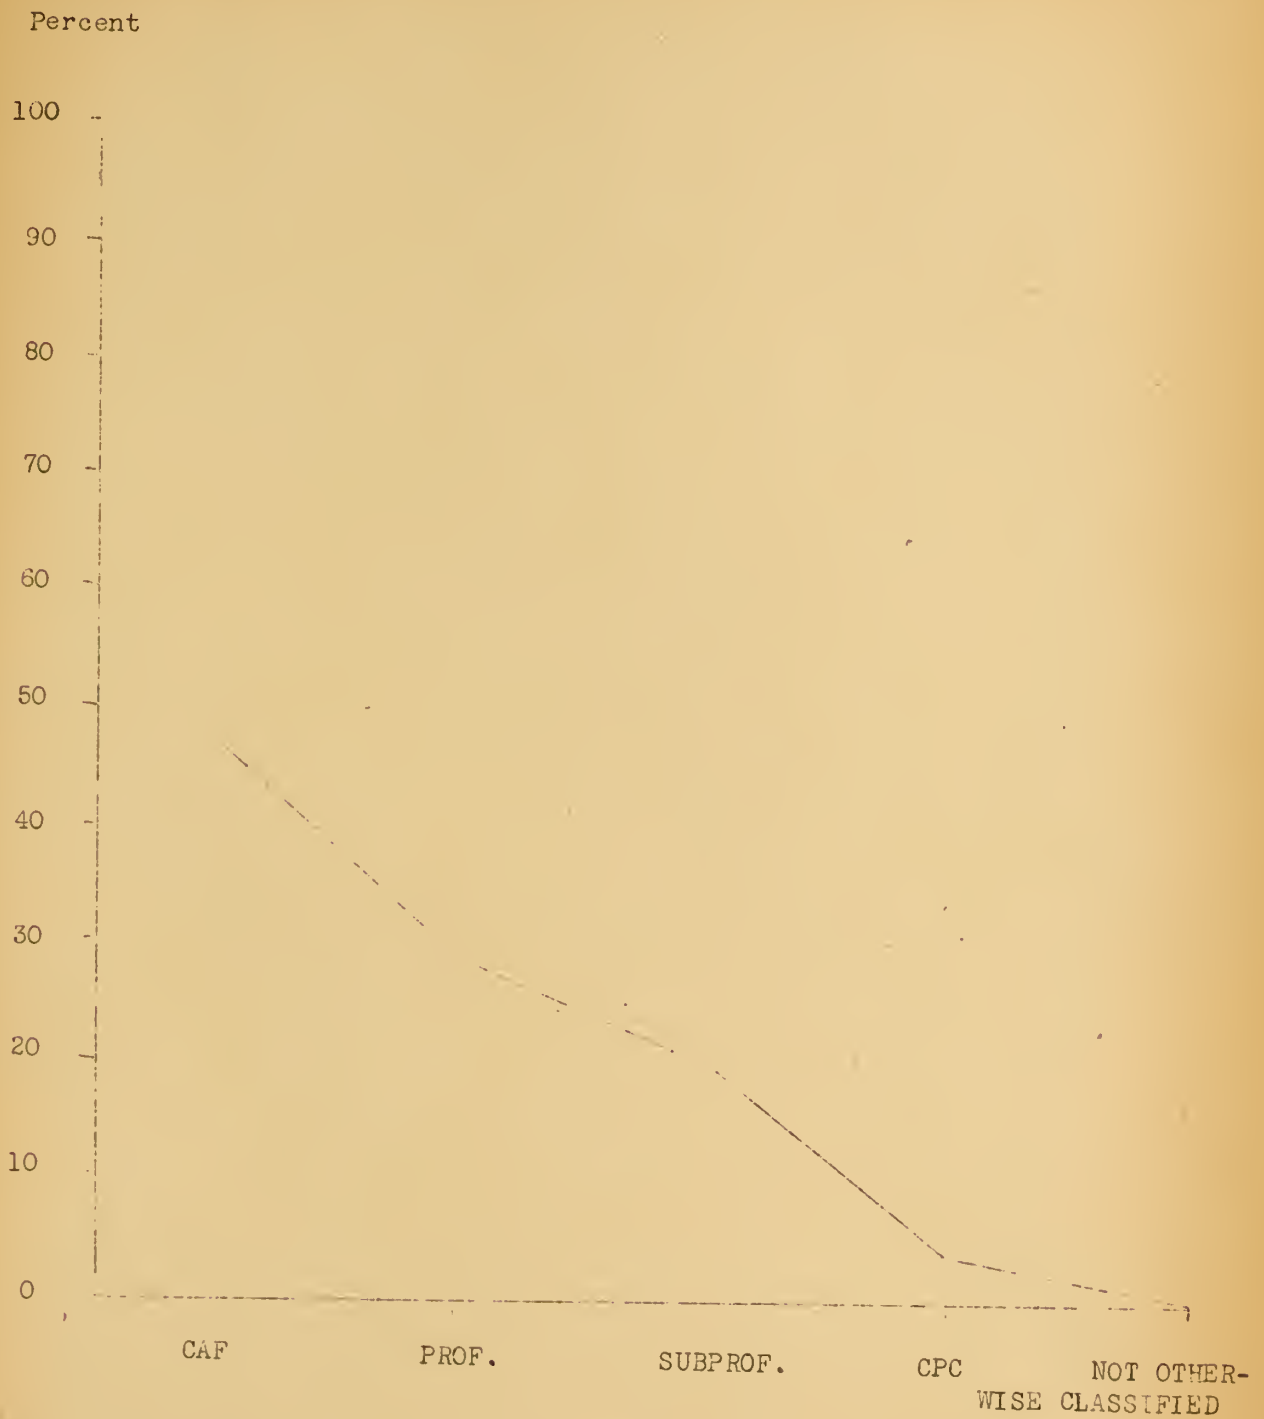

MILITARY FURLOUGHS

The total number of employees serving in the armed forces was 4,251 as of June 30, 1947. This figure includes the female employees serving in the Armed Forces and

employees who left to join the Merchant Marine Service. Of the 4,251 serving, 32.9 percent are in the Production and Marketing Administration; 23.3 percent in the Farmers Home Administration; 14.0 percent in the Soil Conservation Service and 10.8 percent in the Forest Service. During the month of June, 1947, 25 employees returned to their positions in the Department. Two employees were definitely known to be deceased during the month of June, 1947.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally be pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters. The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.) The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

July, 1947

Prepared by:
Office of Personnel
Division of Employment
September 5, 1947

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on July 31, 1947 was 62,392. This represents a decrease of 4,809 from the June 30, 1947 revised figure. Inside the Washington, D. C. Metropolitan Area there were 10,225, a decrease of 436 from the June 30, 1947 revised figure. Outside the Washington, D. C. Metropolitan Area there were 52,167 full-time employees. This represents a decrease of 4,373 from the June 30, 1947 revised figure. The total number of full-time employees in the Department, including 828 outside the continental limits of the United States was 63,220 on July 31, 1947, 10,225 of these were in the Washington, D. C. Metropolitan Area and 52,995 were outside the Washington, D. C. Metropolitan Area;

Total employment on July 31, 1947 was 85,003, a decrease of 5,391 from the June 30, 1947 revised figure. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, WOC employees, and part-time workers as well as those regularly employed.

During this period the Federal Crop Insurance Corporation was established in accordance with Secretary's Memo #1196 dated June 26, 1947. Employees were transferred from the Production and Marketing Administration.

The decrease in full-time employment in the Sugar Rationing Administration was due to the liquidation of the Sugar Rationing Administration. Decreases in full-time employment resulting from reduced appropriations are shown in Forest Service, Soil Conservation Service, Production and Marketing Administration, Rural Electrification Administration, Farmers Home Administration and Entomology and Plant Quarantine. In addition the drop in full-time employment in the Forest Service reflects a reduction of working funds and National Housing Authority programs. The Production and Marketing Administration lost full-time employees as a result of the transfer of employees to the Federal Crop Insurance Corporation established in accordance with Secretary's Memo #1196 dated June 26, 1947.

The increase in other than full-time employment in the Farmers Home Administration is accounted for by the new appointments of State and County Committeemen. The increase in the other than full-time employment in the Bureau of Plant Industry, Soils and Agricultural Engineering was due to seasonal employment of laborers.

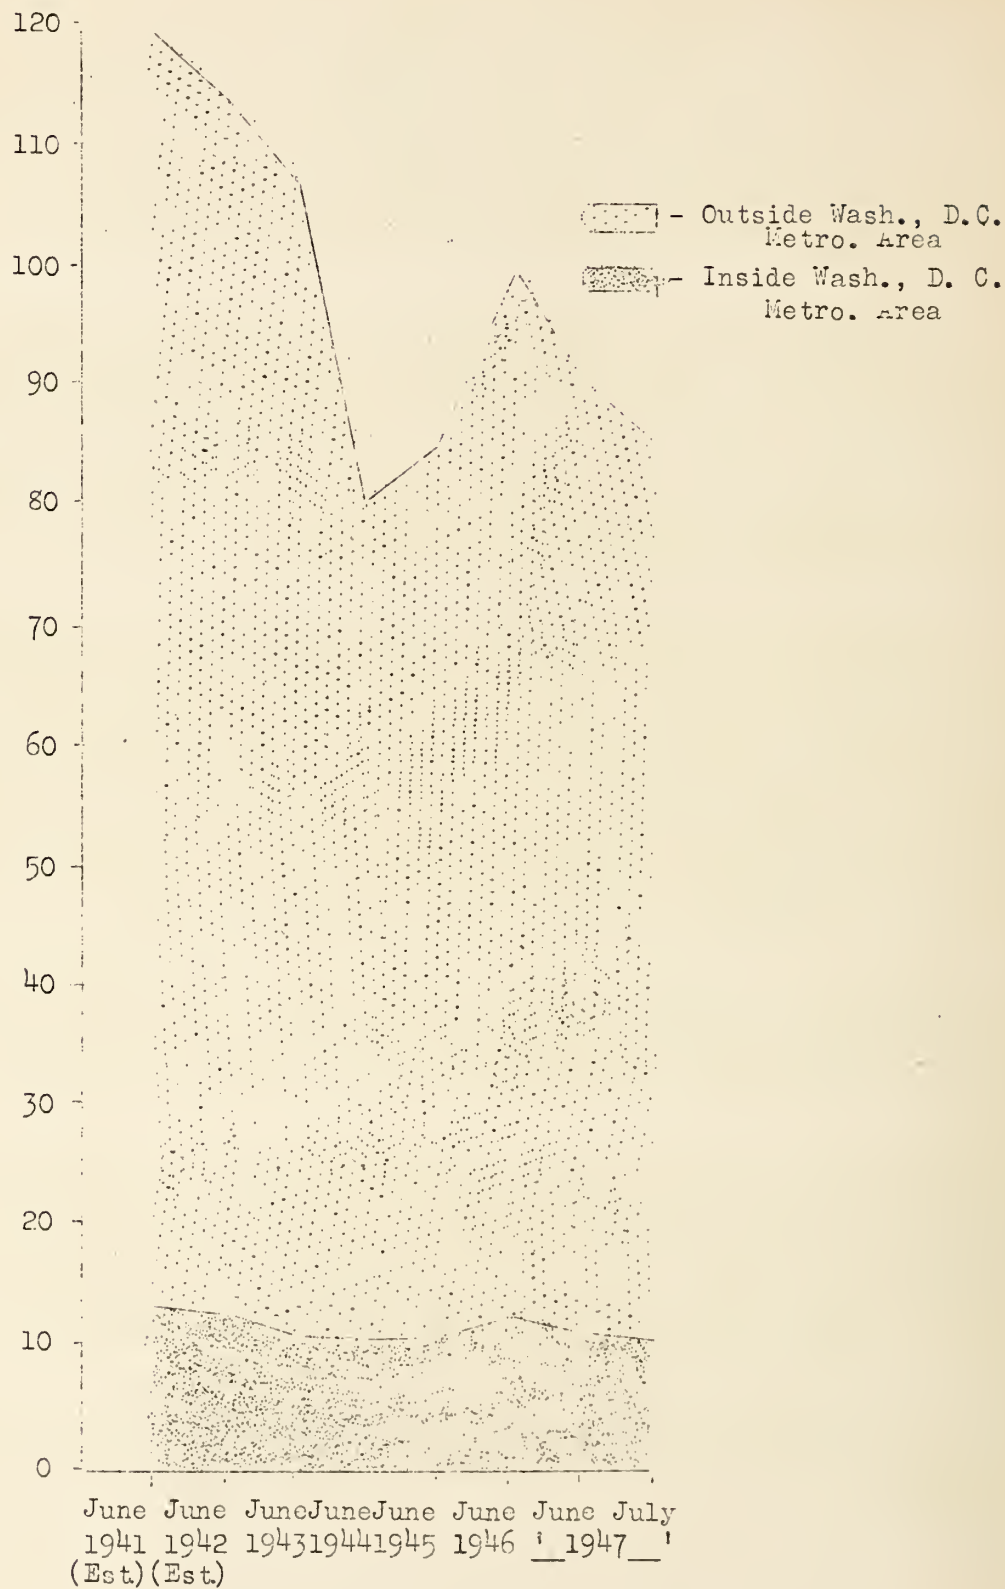

TURNOVER

- The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees from the Department for July, 1947 totaled 8,441, or 13.0 percent, an increase of 0.8 percent since June, 1947. There were 588 separations or 5.6 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 3.4 percent since June, 1947; and there were 7,853 or 14.4 percent for the Outside Washington, D. C. Metropolitan Area, an increase of 1.5 percent for the same period.

The greater percentage of the separations fell in the voluntary separation category which includes separations by resignations, by transfer and by abandonment of positions.

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the month of June. It will not agree with figures reported on the CS 3257.

2/ Reasons making up this category are: Desires Perm. Empl.; To work in Private Ind.; Bus. for Self; Former trade or job.

3/ Includes Ofc Budget & Finance; Ofc of Personnel; Ofc of Plant & Oper.; Work Cap. Fund; and Imm. Ofc of Sec'y.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally be pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters. The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.) The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

August, 1947

Prepared by:
Office of Personnel
Division of Employment
September 22, 1947

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on August 31, 1947 was 59,296. This represents a decrease of 3,095 from the July 31, 1947 revised figure. Inside the Washington, D. C. Metropolitan Area there were 10,084, a decrease of 141 from the July 31, 1947 figure. Outside the Washington, D. C. Metropolitan Area there were 49,212 full-time employees. This represents a decrease of 2,954 from the July 31, 1947 revised figure. The total number of full-time employees in the Department, including 952 outside the continental limits of the United States was 60,248 on August 31, 1947, 10,084 of these were in the Washington, D. C. Metropolitan Area and 50,164 were outside the Washington, D. C. Metropolitan Area.

Total employment on August 31, 1947 was 80,994, a decrease of 4,009 from the July 31, 1947 figure. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, WOC employees, and part-time workers as well as those regularly employed.

During this period the Office of the Administrator of Research and Marketing was established under the provisions of the Research and Marketing Act of 1946 (Public Law 733).

The decrease in full-time and other than full-time employment in the Bureau of Entomology and Plant Quarantine and other than full-time employment in the Federal Crop Insurance Corporation and the Bureau of Plant Industry, Soils, and Agricultural Engineering was due to curtailment of seasonal activities. The reduction in full-time and other than full-time employment in the Forest Service was due to the closing down of blister rust control projects, completion of road projects, and some reduction in fire control organizations. The Soil Conservation Service shows a decrease in full-time and other than full-time employment as a result of reduced appropriations.

The increase in full-time employment in the Bureau of Animal Industry is accounted for by the increased work on the Foot-and-Mouth Disease project in Mexico.

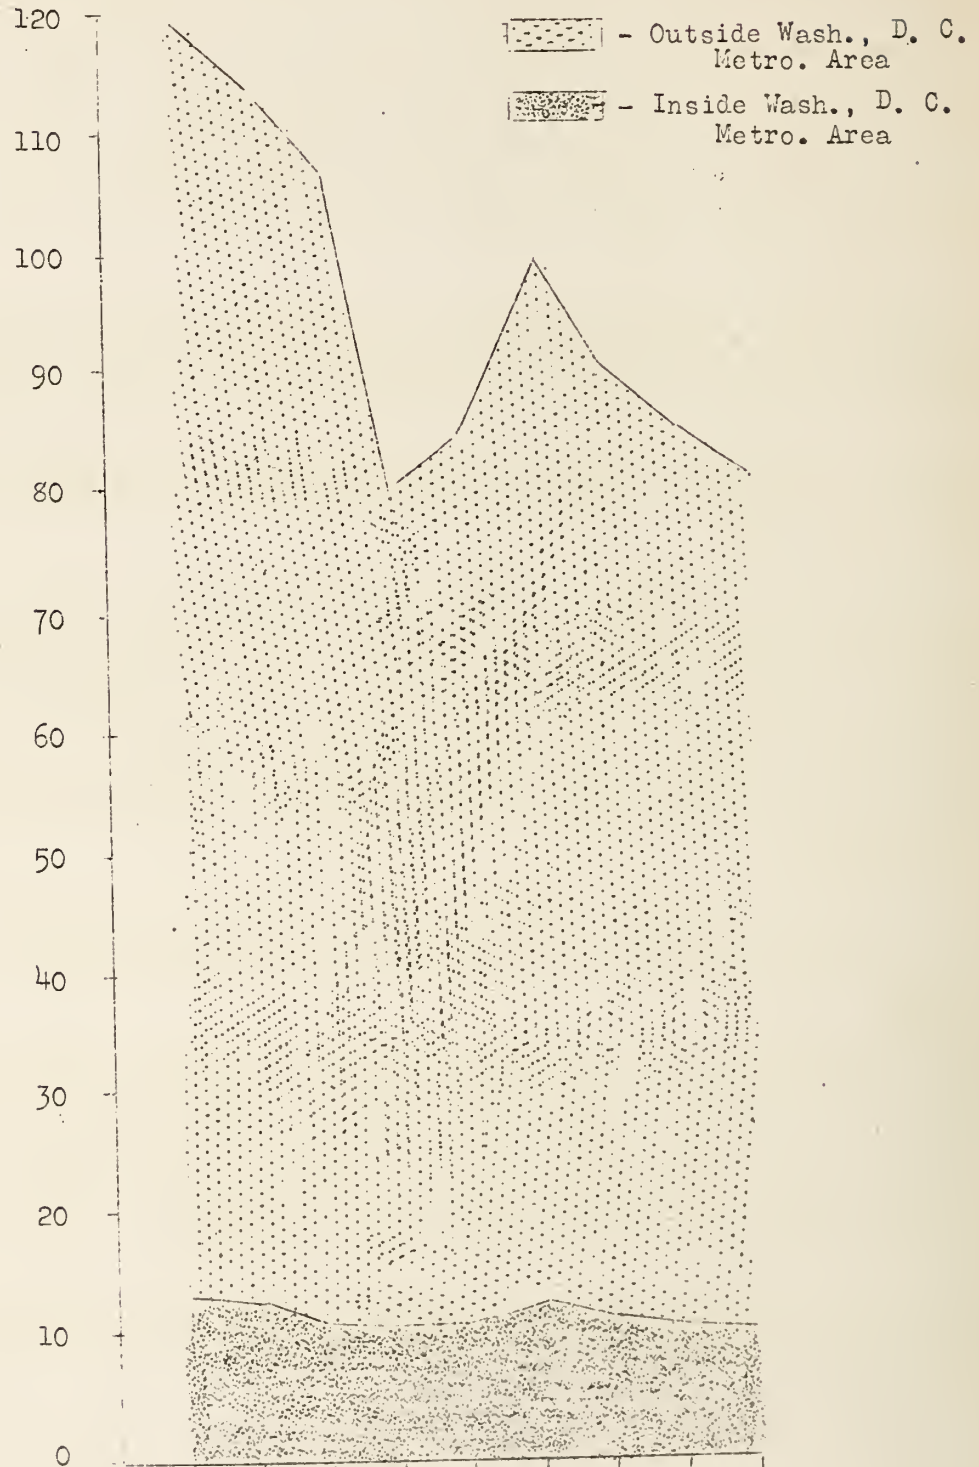

TURNOVER

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees from the Department for August, 1947 totaled 5,686, or 9.3 percent, a decrease of 3.7 percent since July, 1947. There were 281 separations or 2.8 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 2.8 percent since July, 1947; and there were 5,405 or 10.7 percent for the Outside Washington, D. C. Metropolitan Area, a decrease of 3.7 percent for the same period.

The greater percentage of the separations fell in the voluntary separation category which includes separations by resignations, by transfer and by abandonment of positions.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters) The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.) The number of these persons will be reported annually, as soon as possible after June 30 of each year.

 Explanatory Note	

GENERAL SUMMARYFIRST QUARTER, FISCAL YEAR, 1948

Full-time employment within the continental limits of the United States on September 30, 1947 was 54,845, a decrease of 12,356 from the June 30, 1947 revised figure. The Inside Washington, D. C. Metropolitan Area was decreased by 681 and the Outside Washington, D. C. Metropolitan Area was decreased by 11,675 from the June 30, 1947 revised figures. The decrease in the Inside Washington, D. C. Metropolitan Area occurred during the month of July and was due mainly to reductions in force in order to comply with the appropriation legislation. The decrease in the Outside Washington, D. C. Metropolitan Area occurred during each month of the quarter and was due mainly to liquidation of the Sugar Rationing Administration; curtailment of seasonal activities in the Bureau of Entomology and Plant Quarantine, the Bureau of Plant Industry, Soils and Agricultural Engineering, and the Federal Crop Insurance Corporation; and reduced appropriations in the Forest Service, Soil Conservation Service, Production and Marketing Administration, Rural Electrification Administration, Farmers Home Administration and the Bureau of Entomology and Plant Quarantine.

Total employment on September 30, 1947 was 76,241, a decrease of 14,153 from the June 30, 1947 revised figure. The Inside Washington, D. C. Metropolitan Area was decreased by 756 and the Outside Washington, D. C. Metropolitan Area was decreased by 13,397 from the June 30, 1947 revised figures. During this quarter, employment other than full-time decreased by 2,009 and employment outside the continental limits of the United States increased by 256.

During this quarter the Federal Crop Insurance Corporation was established in accordance with Secretary's Memo #1196 dated June 26, 1947. Employees were transferred from the Production and Marketing Administration.

SEPTEMBER, 1947

On September 30, 1947 there were 54,845 full-time employees within the continental limits of the United States. This represents a decrease of 4,451 from August 31, 1947. Inside the Washington, D. C. Metropolitan Area there were 9,980, a decrease of 104 since August 31, 1947. Outside the Washington, D. C. Metropolitan Area there were 44,865, a decrease of 4,347 for the same period. The total number of full-time employees in the Department, including 1,094 outside the continental limits of the United States was 55,939 on September 30, 1947, 9,980 of these were in the inside Washington, D. C. Metropolitan Area and 45,959 were outside the Washington, D. C. Metropolitan Area.

The decrease in full-time and other than full-time employment in the Bureau of Entomology and Plant Quarantine and full-time employment in the Forest Service was due to curtailment of seasonal activities. The seasonal variation of loss adjusters was responsible for the decrease of other than full-time employment in the Federal Crop Insurance Corporation. The Soil Conservation Service shows a decrease in full-time and other than full-time employment as a result of reduced appropriations.

The increase in full-time employment in the Bureau of Animal Industry is accounted for by the increased work on the Foot-and-Mouth Disease project in Mexico. The increase in other than full-time employment in the Farmers Home Administration was due to reappointments of State and County Committeemen.

Total employment, on September 30, 1947 was 76,241, a decrease of 4,753 since August 31, 1947. Inside the Washington, D. C. Metropolitan Area there were 10,193, a decrease of 115; and 66,048 for the Outside Washington, D. C. Metropolitan Area, a decrease of 4,638 for the same period. These figures apply to total employment in the Department including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

CASUAL EMPLOYMENT

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of August, 1947, there were 6,224 casual employees in the Department, representing a decrease of 2,277 over the July, 1947 figure. The Forest Service was the only bureau employing Casual personnel during August, 1947.

FEMALE EMPLOYEES

FIRST QUARTER, FISCAL YEAR, 1948

There was a decrease of 2,371 regular full-time female employees in the Department from June 30, 1947. The number of full-time female employees, 14,283 on September 30, 1947 represents 26.0 percent of total regular full-time employees in the continental limits of the United States, an increase of 1.2 percent over the June 30, 1947 figure.

PERSONNEL TURNOVER

FIRST QUARTER, FISCAL YEAR, 1948

Accessions to regular full-time employees totaled 8,732 during the quarter ending September 30, 1947, excluding transfers between reporting units. There were 154 inter-agency transfers, 43 reemployment and returns from military service, 268 original probational appointments, and 8,267 of all other types. All other types of accessions represent 94.7 percent of all accessions to the Department. The accession rate of full-time personnel in regular groups for the first quarter of the fiscal year, 1948 was 14.9 percent. This represents a decrease of 17.3 percent from the accession rate of 32.2 percent for the fourth quarter, fiscal year, 1947.

Separations of regular full-time personnel from the Department amounted to 21,146 during the first quarter and consisted of 4,673 voluntary separations; 5,677 reductions in force; 49 by removal, disqualification and inefficiency; 644 extended leave without pay; and 10,103 of all other types. The separation rate for the same period was 34.7 percent, representing an excess of separations over accessions of 19.8 percent. The rates for the Inside Washington, D. C. Metropolitan Area were: Separations 11.0; and Accessions 4.4 percent, an excess of separations over accessions of 6.6 percent. The rates for the Outside Washington, D. C. Metropolitan Area were: Separations 39.5 percent; Accessions 16.3 percent, an excess of separations over accessions of 23.2 percent. Although this rate is used by the Civil Service Commission and apparently appears high, it is due to the separation of temporary employees and separations by reduction in force.

The turnover rate excluding the separation of temporary personnel and the separations due to reduction in force for the first quarter of the fiscal year 1948 was 8.1 percent; and for the month of September, 3.1 percent.

MILITARY FURLOUGHS

The total number of employees serving in the Armed Forces was 4,070 as of September 30, 1947. This figure includes the female employees serving in the Armed Forces

and employees who left to join the Merchant Marine Service. Of the 4,070 serving, 33.0 percent are in the Production and Marketing Administration (which includes figures for the Federal Crop Insurance Corporation); 24.0 percent in the Farmers Home Administration; 13.7 percent in the Soil Conservation Service and 10.5 percent in the Forest Service. During the month of September, 1947, 16 employees returned to their positions in the Department. No employees were definitely known to be deceased during the month of September, 1947.

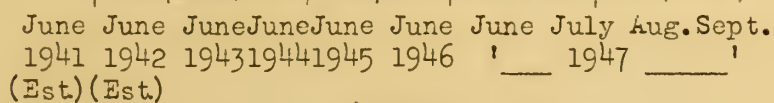

PROMOTIONS

FIRST QUARTER, FISCAL YEAR, 1948

A total of 1,128 grade, or grade and salary promotions, among employees subject to the Classification Act of 1923, as amended, and employees in the DA grades, was granted during the first quarter of the fiscal year, 1948. This represents an average of 376 grade or grade and salary promotions for one month.

On the basis of total grade, or grade and salary promotions granted during the quarter, and the average number of employees for the same period, one out of every 35 was recipient of one of the promotions. One out of every 50 in the CAF service received a promotion, as did one out of every 41 in the Professional service, one out of every 60 in the Sub-Professional service, and one out of every 87 in the CPC service. There were less than one percent, grade, or grade and salary promotions granted in the group designated as "Not Otherwise Classified".

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. V.O.C. (Without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.) The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

October, 1947

Prepared by:
Office of Personnel
Division of Employment
October 19, 1947

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on October 31, 1947 was 53,537. This represents a decrease of 1,310 from the September 30, 1947 revised figure. Inside the Washington, D. C. Metropolitan Area there were 9,944, a decrease of 36 from the September 30, 1947 figure. Outside the Washington, D. C. Metropolitan Area there were 43,593 full-time employees. This represents a decrease of 1,274 from the September 30, 1947 revised figure. The total number of full-time employees in the Department, including 1,268 outside the continental limits of the United States was 54,805 on October 31, 1947, 9,944 of these were in the Washington, D. C. Metropolitan Area and 44,861 were outside the Washington, D. C. Metropolitan Area.

Total employment on October 31, 1947 was 74,885, a decrease of 1,356 from the September 30, 1947 figure. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, WOC employees, and part-time workers as well as those regularly employed.

The decrease in other than full-time employment in the Bureau of Entomology and Plant Quarantine and in full-time employment in the Forest Service was due to curtailment of seasonal activities. The decrease in full-time employment in the Soil Conservation Service was due to reduction in force and the displacement of War Service employees.

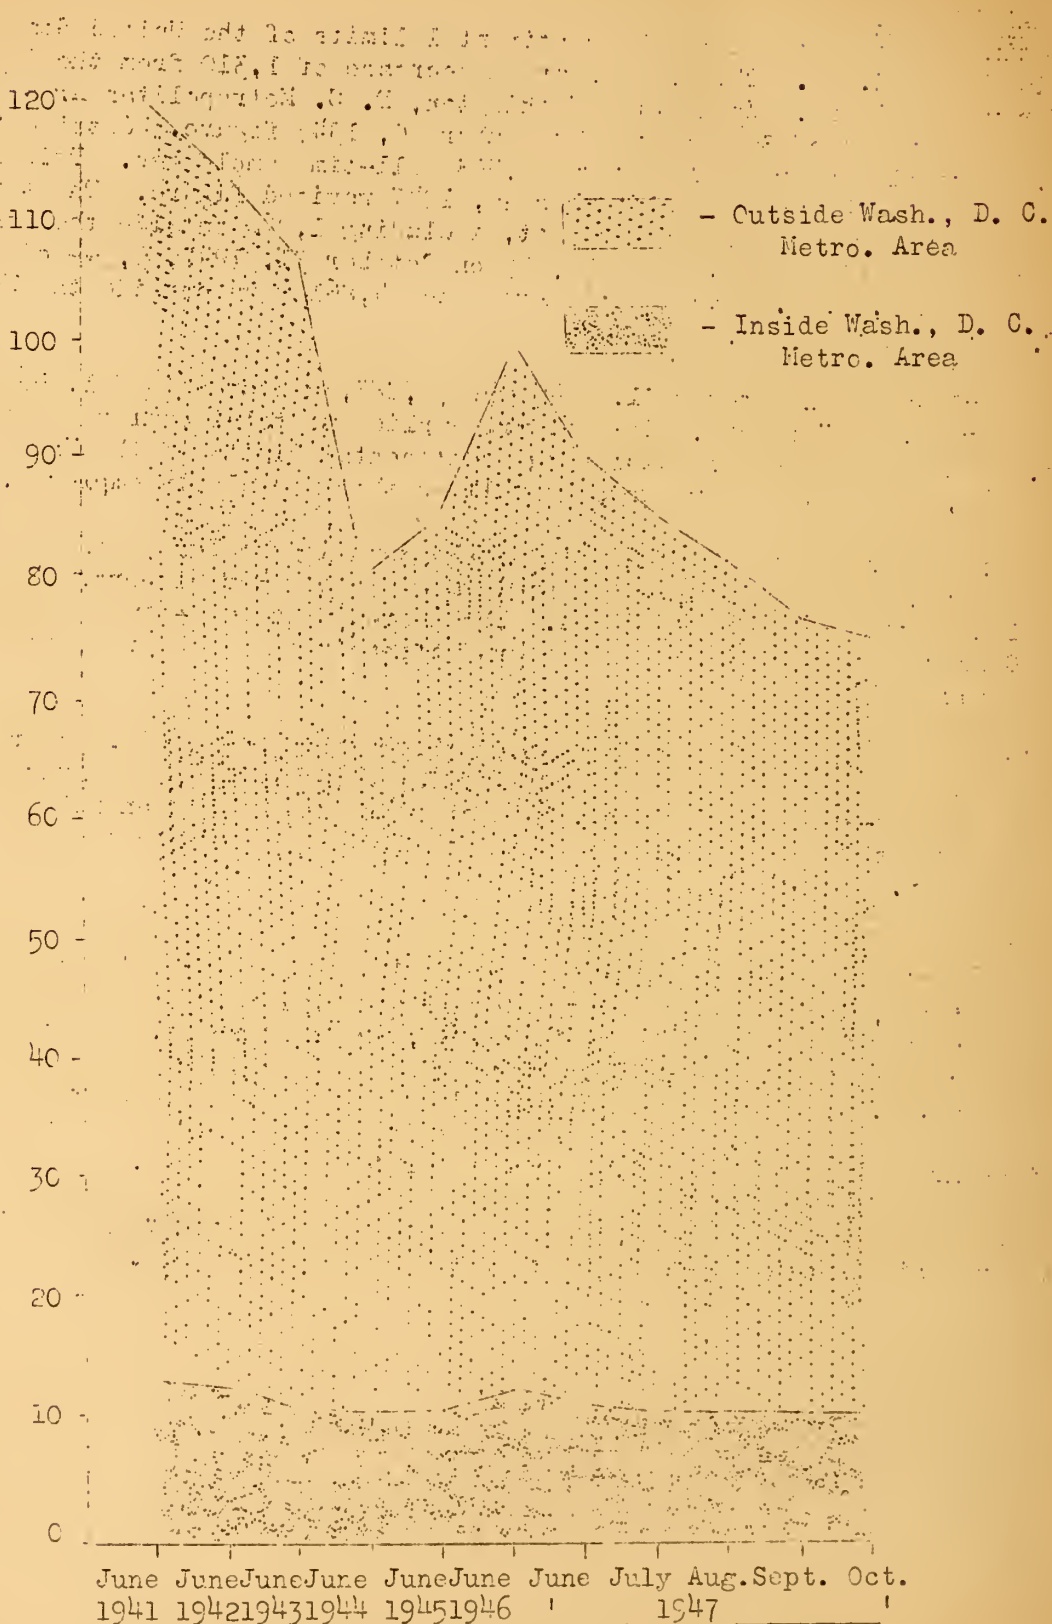

The increase in full-time employment in the Bureau of Animal Industry is accounted for by the increased activities in the joint Mexico-American Commission for eradication of foot-and-mouth disease. The increase in other than full-time employment in the Farmers Home Administration was due to reappointments of State and County Committeemen.

TURNOVER

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees from the Department for October, 1947 totaled 3,340, or 6.2 percent, a decrease of 6.1 percent since September, 1947. There were 230 separations or 2.3 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 0.3 percent since September, 1947; and there were 3,110 or 7.0 percent for the Outside Washington, D. C. Metropolitan Area, a decrease of 7.4 percent for the same period.

The greater percentage of the separations fell in the other types of separation category which includes separations of temporary appointees.

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the month of September. It will not agree with figures reported on the CS Form 3257.

2/ Reasons making up this category are: Desires Perm. Empl.; To work in Private Ind.; Bus. for Self; Former Trade or Job. Includes Ofc Budget & Finance; Ofc of Personnel; Ofc of P&O; Work. Cap. Fund; Ofc Adm. Res. & Mkt; and Imm. Ofc of Sec'y

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the Spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-Force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service assignees, crop reporters, etc.) The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

November, 1947

Prepared by:
Office of Personnel
Division of Employment
December 19, 1947

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on November 30, 1947 was 51,874. This represents a decrease of 1,558 from the October 31, 1947 revised figure. Inside the Washington, D. C. Metropolitan Area there were 9,954, an increase of 10 over the October 31, 1947 figure. Outside the Washington, D. C. Metropolitan Area there were 41,920 full-time employees. This represents a decrease of 1,568 from the October 31, 1947 revised figure. The total number of full-time employees in the Department, including 1,322 outside the continental limits of the the United States was 53,196 on November 30, 1947, 9,954 of these were in the Washington, D. C. Metropolitan Area and 43,242 were outside the Washington, D. C. Metropolitan Area.

Total employment on November 30, 1947 was 72,499, a decrease of 2,386 from the October 31, 1947 figure. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, WOC employees, and part-time workers as well as those regularly employed.

The decrease in the full-time and other than full-time employment in the Forest Service was due to adverse weather conditions which disrupted the construction of roads and trails, and other field activities. The decrease in other than full-time employment in the Federal Crop Insurance Corporation was due to the seasonal variation in crop adjustment work. The apparent decrease in the full-time employment in the Federal Crop Insurance Corporation was merely an error in reporting. These employees should have been included in the other than full-time employees.

The increase in other than full-time employment in the Bureau of Agricultural Economics was due entirely to an increase in Letter of Authorization employees employed for a potato survey and a beef cattle survey under the Research and Marketing Act. The increase in full-time employment in the Bureau of Animal Industry is accounted for by the increased activities in the joint Mexico-American Commission for eradication of foot-and-mouth disease.

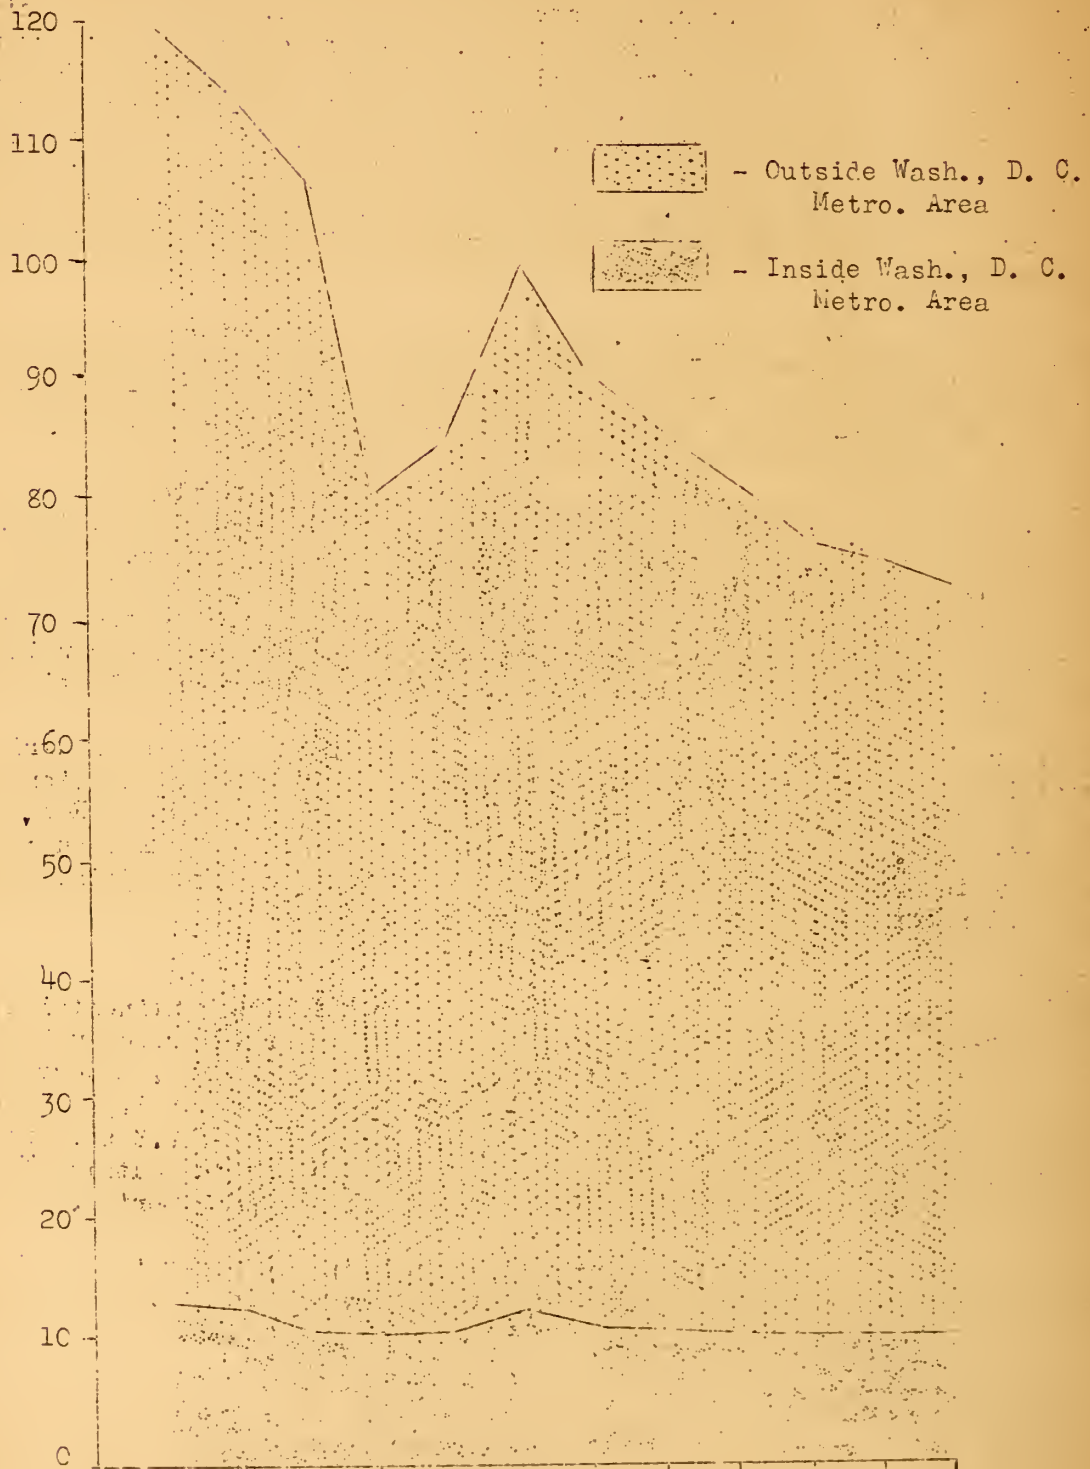

TURNOVER

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees from the Department for November, 1947 totaled 2,849, or 5.4 percent, a decrease of 0.8 percent since October, 1947. There were 151 separations or 1.5 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 0.8 percent since October, 1947; and there were 2,698 or 6.3 percent for the outside Washington, D. C. Metropolitan Area, a decrease of 0.7 percent for the same period.

The greater percentage of the separations fell in the other types of separation category which includes separations of temporary appointees.

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

SECOND QUARTER, FISCAL YEAR, 1948

Full-time employment within the continental limits of the United States on December 31, 1947 was 50,466, a decrease of 4,381 from the September 30, 1947 revised figure. The Inside Washington, D. C. Metropolitan Area decreased by 28 and the Outside Washington, D. C. Metropolitan Area decreased by 4,353 from the September 30, 1947 revised figures. The decrease in the Outside Washington, D. C. Metropolitan Area occurred during each month of the Quarter and was due mainly to curtailment of seasonal activities in the Bureau of Entomology and Plant Quarantine and the Forest Service; and reduction in force and displacement of War Service employees in the Soil Conservation Service.

Total employment on December 31, 1947 was 70,660, a decrease of 5,581 from the September 30, 1947 figure. The Inside Washington, D. C. Metropolitan Area decreased by 42 and the Outside Washington, D. C. Metropolitan Area decreased by 5,539 from the September 30, 1947 figures. During this quarter, employment other than full-time decreased by 1,378 and employment outside the continental limits of the United States increased by 262.

DECEMBER, 1947

On December 31, 1947 there were 50,466 full-time employees within the continental limits of the United States. This represents a decrease of 1,408 from November 30, 1947. Inside the Washington, D. C. Metropolitan Area there were 9,952, a decrease of 2 since November 30, 1947. Outside the Washington, D. C. Metropolitan Area there were 40,514, a decrease of 1,406 for the same period. The total number of full-time employees in the Department, including 1,356 outside the continental limits of the United States was 51,822 on December 31, 1947, 9,952 of these were in the Inside Washington, D. C. Metropolitan Area and 41,870 were Outside the Washington, D. C. Metropolitan Area.

The decrease in full-time employment in the Forest Service was due to adverse weather conditions which disrupted the construction of roads and trails, and other field activities.

Total employment on December 31, 1947 was 70,660, a decrease of 1,839 since November 30, 1947. Inside the Washington, D. C. Metropolitan Area there were 10,151, an increase of 4; and 60,509 for the Outside Washington, D. C. Metropolitan Area, a decrease of 1,843 for the same period. These figures apply to total employment in the Department including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

CASUAL EMPLOYMENT

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of November, 1947, there were 1,002 casual employees in the Department, representing a decrease of 767 from the October, 1947 figure. The Forest Service was the only bureau employing Casual personnel during November, 1947

FEMALE EMPLOYEES

SECOND QUARTER, FISCAL YEAR, 1948

There was an increase of 1,086 regular full-time female employees in the Department

from September 30, 1947. The number of full-time female employees, 15,369 on December 31, 1947 represents 30.5 percent of total regular full-time employees in the continental limits of the United States, an increase of 5.5 percent over the September 30, 1947 figure.

PERSONNEL TURNOVER

SECOND QUARTER, FISCAL YEAR, 1948

Accessions to regular full-time employees totaled 4,400 during the quarter ending December 31, 1947, excluding transfers between reporting units. There were 211 inter-agency transfers, 30 reemployment and returns from military service, 501 original probational appointments, and 3,658 of all other types. All other types of accessions represent 83.1 percent of all accessions to the Department. The accessions rate of full-time personnel in regular groups for the second quarter of the fiscal year, 1948 was 8.5 percent. This represents a decrease of 6.4 percent from the accession rate of 14.9 percent for the first quarter, fiscal year, 1948.

Separations of regular full-time personnel from the Department amounted to 8,710 during the second quarter and consisted of 2,159 voluntary separations; 764 reductions in force; 22 by removal, disqualification and inefficiency; 496 extended leave without pay; and 5,269 of all other types. The separation rate for the same period was 16.8 percent, representing an excess of separations over accessions of 8.3 percent. The rates for the Inside Washington, D. C. Metropolitan Area were: Separations 5.2 percent; Accessions 4.9 percent, an excess of separations over accessions of 0.3 percent. The rates for the Outside Washington, D. C. Metropolitan Area were: Separations 19.5 percent; Accessions 9.3 percent, an excess of separations over accessions of 10.2 percent. Although this rate is used by the Civil Service Commission and apparently appears high, it is due to the separation of temporary employees and separations by reduction in force.

The turnover rate excluding the separation of temporary personnel and the separations due to reduction in force for the second quarter of the fiscal year, 1948 was 4.9 percent; and for the month of December, 1.9 percent.

PROMOTIONS

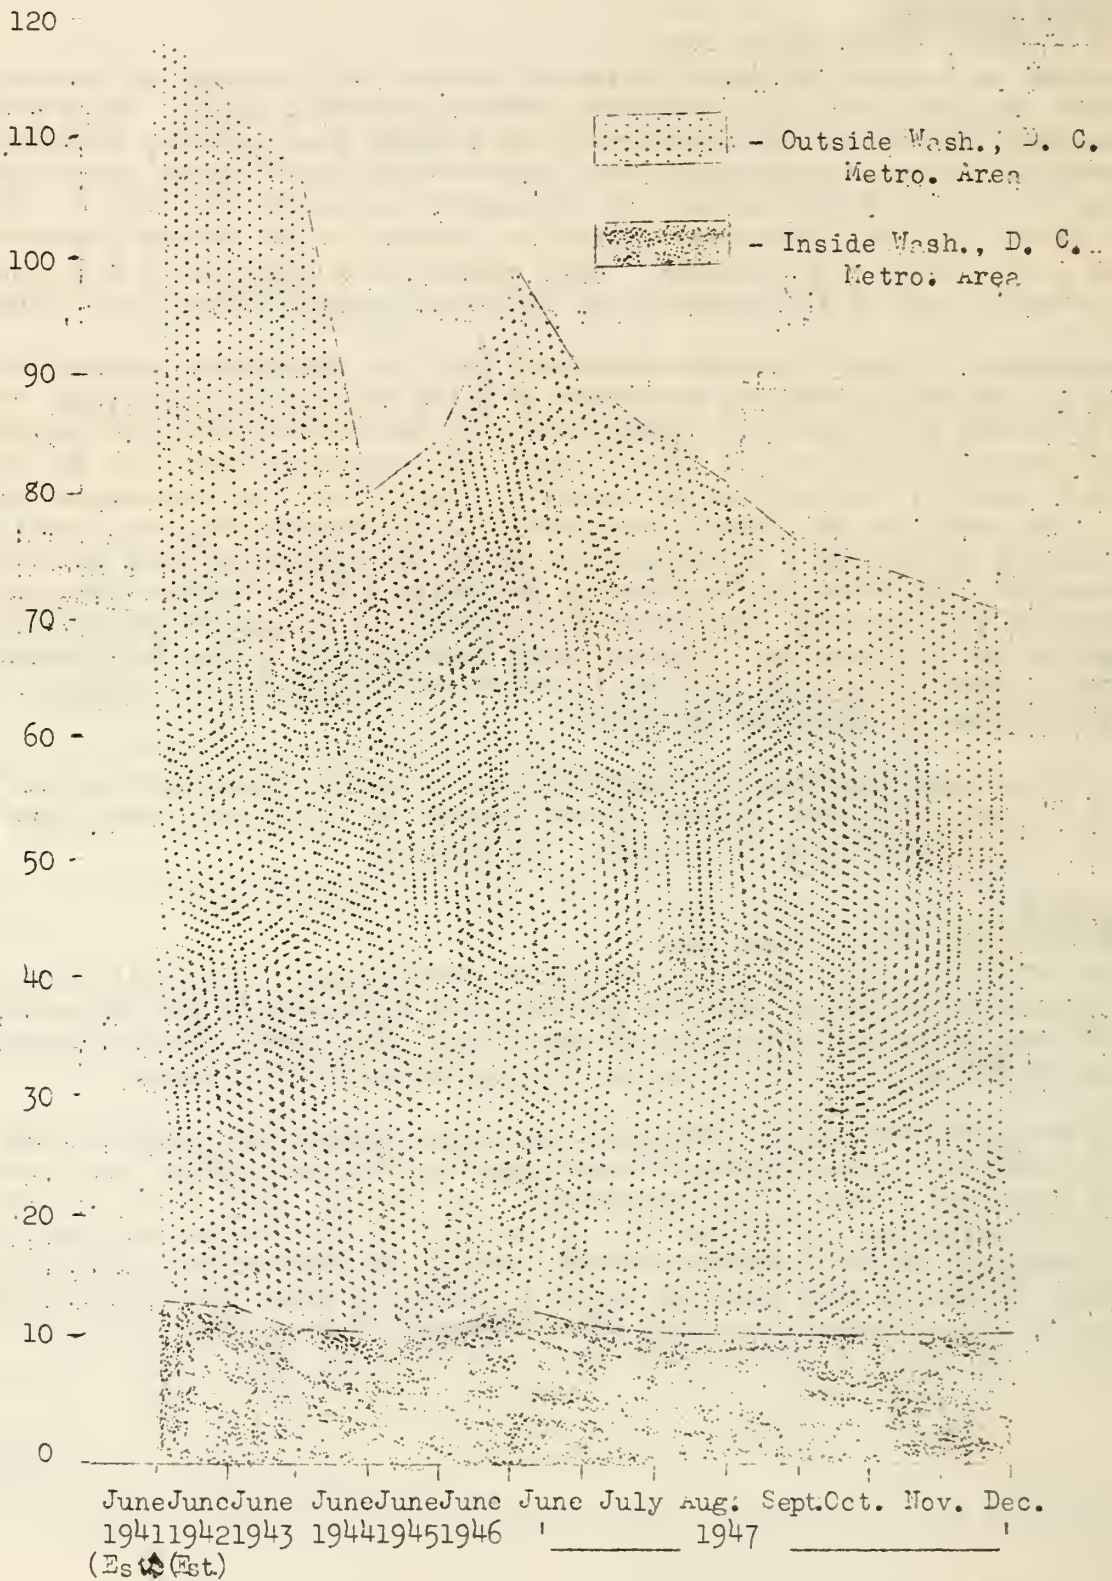

SECOND QUARTER, FISCAL YEAR, 1948

A total of 1,601 grade, or grade and salary promotions, among employees subject to the Classification Act of 1923, as amended, and employees in the DA grades, was granted during the second quarter of the fiscal year, 1948. This represents an average of 534 grade or grade and salary promotions for one month.

On the basis of total grade, or grade and salary promotions granted during the quarter, and the average number of employees for the same period, one out of every 33 was recipient of one of the promotions. One out of every 33 in the CAF service received a promotion, as did one out of every 31 in the Professional service, one out of every 34 in the Sub-Professional service, and one out of every 63 in the CPC service. There was less than one percent, grade, or grade and salary promotions granted in the group designated as "Not Otherwise Classified".
